To

Directors, All State/UT directorates.

(Dealing with Craftsmen Training Scheme)

Subject: Provisional Dynamic Seat Matrix for Admission to various Craftsman Training Scheme Courses for the Academic Session 2026 in NCVET-affiliated Government and Private ITIs across the Country – reg.

Please refer to this Directorate's letter dated 16.01.2026 and D.O. letter dated 27.02.2026 regarding the implementation of the National Instructor Management System (NIMS) by the Directorate General of Training (DGT) with effect from the academic session 2026 onwards.

2. NIMS is envisaged as a transformational reform in instructor management across the ITI ecosystem. It shall function as a single source of truth for instructor data and form the foundation for the proposed National Skill Instructor Registry (SIR). The platform covers all Government and Private ITIs, NSTIs, PMKVY institutions, JSS Centres, etc., and all categories of instructors, including regular, contractual, and guest faculty.
3. As per the guidelines notified, the CTS admission seat matrix for the academic session 2026 shall be generated dynamically based on the approved instructor mapping against the affiliated and eligible ITI-Trade-Shift-Units (ITSUs) by the respective ITIs. Admissions for the academic session 2026 shall be permitted only against the seats reflected in this dynamic seat matrix. Accordingly, the instructor registration and approval processes were enabled for all ITIs with effect from 09.03.2026. The cut-off date for instructor mapping and final seat matrix generation, initially fixed as 09.05.2026, was subsequently extended up to 30.06.2026 and further extended up to 20.07.2026 in view of requests received from various States/UTs and ITI Associations.

4. Based on the approved instructor mappings against the affiliated and eligible ITSUs for the academic session 2026, the system automatically generates the dynamic seat matrix, which is made available in the respective State/UT Directorate login for conducting admissions. The same is also available in the respective ITI Approver login under the "**Dynamic Seat Matrix**" submenu of the NIMS module.
5. All Government and Private ITIs are requested to ensure that approved instructors (holding a valid Instructor Permanent Registration Number (IPRN)) are mapped against all affiliated and eligible ITSUs intended for admission during the academic session 2026. Only those ITSUs having approved instructor mappings shall automatically appear in the Dynamic Seat Matrix. Any affiliated ITSU that is not mapped with an approved instructor shall not be reflected in the seat matrix, and admissions in such ITSUs shall not be permitted.
6. The Dynamic Seat Matrix shall remain dynamic up to 20.07.2026, and ITSUs may be added or removed automatically based on approved instructor mappings by ITIs. All ITSUs mapped with approved instructors on or before 20.07.2026 shall be included in the final seat matrix for the academic session 2026. Admissions shall be permitted only in those ITSUs reflected in the final seat matrix.
7. After the cut-off date, i.e., 20.07.2026, no new instructor mapping resulting in the addition of new ITSUs to the Seat Matrix 2026 shall be permitted. However, if an approved instructor mapped against an ITSU already appearing in the Seat Matrix 2026 resigns or leaves the institute after 20.07.2026, the concerned ITSU shall continue to remain in the seat matrix and admissions shall not be affected. In such cases, the concerned ITI shall map another approved instructor against the same ITSU within 30 days of such vacancy. New instructor registrations and approval process remains active throughout the year. No ITSU shall be added to or deleted from the Seat Matrix 2026 after 20.07.2026.
8. The tentative seat matrix for the academic session 2026, generated based on approved instructor mappings as on 08.07.2026, is enclosed as Annexure-A. Since instructor mapping is still in progress, the enclosed seat matrix is provisional and subject to change up to 20.07.2026. The seat matrix shall be frozen after the instructor mapping facility is disabled on 20.07.2026.
9. All Government and Private ITIs, as well as the respective State/UT Directorates, shall ensure that admissions are made strictly in accordance with the final Dynamic Seat Matrix. Any admission made in excess of or contrary to the final seat matrix shall be the sole responsibility and liability of the concerned ITI and the respective State/UT Directorate. DGT shall not be responsible for such deviations, and the concerned ITI/State/UT Directorate shall immediately cancel any such excess admissions.
10. In view of the above, all Government and Private ITIs are requested to complete the mapping of approved instructors against all affiliated and

eligible ITSUs on or before 20.07.2026. The respective State/UT Directorates shall closely monitor and ensure timely completion of this activity. Any non-compliance shall be the sole responsibility of the concerned ITI and State/UT Directorate.

11. The tentative ITI trade-wise seating capacity for the academic session 2026, based on approved instructor mappings as on 08.07.2026, is enclosed as Annexure-A for information and has also been made available in the respective ITI and State/UT Directorate logins. The final Dynamic Seat Matrix shall be generated after 20.07.2026 based on the approved instructor mappings available as on the cut-off date and shall be accessible under the "Dynamic Seat Matrix" submenu in the respective ITI and State/UT Directorate logins.
12. This issue with the approval of the competent authority.
13. The Hindi version will be issued separately.

Yours faithfully
